### Marshmallow Whip Facial

For Optimum Hydration...formulated with honey, royal jelly, Hexapeptides, and Marshmallow Root Extract, this treatment infuses the skin with results driven botanicals. Rebuilds and maintains the Lipid Barrier, which is essential to healthy vibrant balanced skin. **\$75.**

### The Bomb!

An invigorating and rejuvenating treatment, that delivers results from head to feet. A customized facial is performed, with varying degrees of enzymes to exfoliate, extractions performed, then a lymphatic facial massage. A luxurious mask appropriate for your skin type is applied. Warm towels on the feet, a Citrus Sugar Scrub to exfoliate, and a fabulous Body Butter foot massage. **\$115.**

### Oxygen Facial

This facial helps protect and reverse damage from environmental pollutants that can harm skin. Skin will feel smoother after this facial as the overall texture of the skin is improved. The oxygen facial reduces the appearance of lines and wrinkle by releasing moisturizers onto the skin, which absorb quickly with the help of oxygen. It reveals visibly plumper, firmer, younger looking skin by infusing skin with vitamins and nutrients. **\$100.**

### Microdermabrasion

Revolutionary crystal free microdermabrasion system effectively treats a myriad of skin conditions. This state of the art procedure increases cellular turnover visibly improving fine lines, hyper pigmentation (age spots) and acne scars. Regular treatments stimulate collagen production resulting in renewed texture and a fresh radiant complexion. **\$95. (Includes a full facial)**

## facials continued

**Caviar Lime Passionfruit** This unique exfoliating and rejuvenating facial uses Caviar Lime to shed the top layer of the skin, without irritation. Passionfruit is loaded with Antioxidants and Vitamin A. Excellent treatment for those looking to firm, brighten and rejuvenate their skin. \$85.

**Firming Peptide Facial** A power combination of Peptides, Antioxidants, Amino Acids, and groundbreaking Stem Cell technology. Glumatic Acid is a building block for the skin, removing toxins and free radicals. L-Camitine creates energy in the skin stimulating, Keratin, Collagen and Elastin which firms and tightens skin. A must for those with advanced signs of aging!! \$95.

## peels

---

### **Mandeliclear Peel\***

Designed specifically for attenuating pigmentation issues. A "half" Jessner with the added benefits of Mandelic Acid make this peel the perfect treatment for brightening pigmentation due to acne, melasma, and sun damage. \$100.

### **Lactic Peel\***

An Alpha Hydroxy Acid that promotes desquamation (shedding) of the outer layer of the skin. A gentle peel that can be used by most skin types. Excellent for hydration and brightening of the skin. Available in 30% 35% and 45%. \$85.

**Acne treatment facial** This facial uses varying degrees of enzymes to deeply exfoliate the skin shedding dead skin cells, and bacteria. The use of these enzymes, extractions, and a green tea clay mask will purify, detoxify, and soothe blemish prone skin. \$75.

### **Dermafrost Salacylic Peel\***

A Salicylic peel Designed to effectively address acne, stages 1+2. Clients can experience a mild to moderate amount of peeling. Helps transform varying degrees of acneic skin, into a healthy vibrant skin. Available in 12.5% and 25% Salacylic. \$85.

### **Alpha/Beta\***

A combination of Lactic and Salacylic Acids, with results similar to Glycolic Peels, but better tolerated by the skin. Excellent for fine lines and wrinkles, brighter, former skin. An anti aging favorite!! Available in varying strengths 30/10% and 40/15%. \$85.

# advanced treatments

**SWiCH Dermal Rejuvenation\*** is a unique alternative to the chemical peel. SWiCH takes advantage of the skin's natural repair mechanism to help restore skin's optimum appearance, without injury to the skin. During this treatment your skin cells will be gently and safely revitalized leaving your skin looking more luminous and firmer looking with a more balanced skin tone. **\$150.**

**HydraFacial MD\*** is a patented vortex fusion treatment that combines spa therapies with medical technology to cleanse, exfoliate, extract, and hydrate your skin. State of the art technology that works for all skin types, with no downtime or discomfort. **\$150.** *(Enhancements available upon consultation)*

**Dermaplaning\*** is a procedure that exfoliates the outer layer of your skin (epidermis). A single blade gently removes the dead skin, promoting cellular renewal, creating a smoother brighter complexion. Vellus hair is also removed in the process. Perfect for any skin type except acneic.  
**\$90.** *(Stand alone treatment)* >> **\$60.** *(When added to another skincare service)*

**Dermapeel\*** exfoliates the outer layer of the skin (epidermis) and increases cellular turnover through two functions. The Dermaplaning exfoliates, and a mild chemical peel will soften lines and wrinkles, stimulate collagen, reduce acne scars and hyperpigmentation, creating tighter, brighter, firmer skin. **\$125.**

*\*Recommended in a series for best results.*
